

SPACE AND THE PLANETS

Name: _____

Activity time line:

Planet: _____

Due date	Done	Approved/Comments	Description of Task
			Choose a planet and Research/ With Approval.
			Find out who else is researching your planet (You will work with them later to design a future mission to that planet).
			Begin your research. Search the internet to find as much information as you can about you planet.
			Complete Planetary Brochure and Planetary Chart handouts.
			Turn in a bibliography (a list of the resources you have used).
			Complete your planetary brochure. Include the information you collected and recorded on your student handouts.
			With your team, complete the design for a mission to explore your planet in the future. (Use technology to create a presentation).
			In a presentation, share your brochure. Describe to your classmates what you learned about you planet.
			With your team, share your presentation about your future space mission with the class.
